### Definitions

<b>AER</b>	This stands for Annual Equivalent Rate. If you left a sum of money in your account all year, the AER would be the interest rate you'd get if we paid you interest during the course of the year and your subsequently higher balance then earned more interest (this is known as Compound Interest). The AER will only be higher than the gross interest rate where we pay you interest more than once a year. We quote the AER on all of our accounts so that you can compare our products with those of other banks.
<b>Gross</b>	The interest rate before any payment of income tax. Please note, we will not deduct income tax from interest earned on your account. Any interest earned will be paid gross.

**Definitions used in our terms and conditions apply to this Product Summary.**

The 90 day notice account is also subject to our terms and conditions, which you accepted when opening your deposit account and will be required to re-accept when opening this notice account. Please ensure you re-read these terms and conditions prior to applying for this notice account.
